I support HB 821 which helps stop illegal immigration. As a Florida taxpayer, I was distressed to learn that we waste \$2 billion each year in education, public safety, and health care funding for illegals. I support HB 821 and other new laws that help solve this problem. I urge the members of the Florida House to do the same.

Dear Neighbor,

We need to take matters into our own hands, since the federal government has refused to act.

I've filed House Bill 821, the Florida Safe Borders Act, which permits law enforcement to report immigration status of any person caught committing a felony. The bill also prevents illegals from receiving tax payer funded benefits and stops the subsidies of work centers that facilitate the hiring of illegals.

It's not fair that we work hard, play by the rules, and pay our fair share only to see over \$2 billion per year spent on illegal immigrants.

Police, school, and hospital budgets are all affected.<sup>2</sup> My colleagues and I need your help and support to pass HB 821 and other legislation dealing with illegal immigration. I know I can count on you to sign and send back your petitions which I will present to legislative leaders, asking them to take action on our behalf.

Sincerely,

Gayle Harrell
