

**DIVISION OF FLORIDA HIGHWAY PATROL**

**OFFICE OF THE DEPUTY DIRECTOR OF PATROL OPERATIONS**

**AUGUST 29, 2011**

TO: All Uniformed Personnel

FROM: Chief Grady Carrick   
Acting Deputy Director

SUBJECT: Enforcement Action Associated with Headlight Flashing

---

For many years, it has been common to see motorists use their headlights, to signal drivers traveling in the opposite direction of potential enforcement activity ahead. Because of pending litigation involving this issue and our agency, you are directed to suspend enforcement action for this type of driver behavior, regardless of the statute cited. This will remain in effect until resolved by the courts.

The Florida Highway Patrol has built an outstanding reputation for professionalism and enforcement of quality of violations to advance traffic safety, and we appreciate your compliance.

GTC
